

As a resident of a small community, I appreciate K-Love radio station for it's contemporary Christian music. I would not be able to listen to any other local station without hearing the noise that kids call "music". K-Love provides a method for kids to hear the kind of music they like while providing a message that is responsible and does not insite any negative emotions. This community would miss the positive message that K-Love provides and it would NOT be replaced with the music provided by an LPFM broadcaster.
